## Journey through the **Neurodevelopment Pathway**

Referral made to service by SENCO or the Bridge Centre or other professional

Referral screened and reviewed by the team

Referral is complete, placed on the triage waiting list. During triage, we will review the referral form and additional information

**Assessments completed by Speech** 

**Developmental Paediatricians** 

Other assessments may also be

requested including ADOS and

**Psychiatrist appointment** 

and Language Therapy

Remember to: Contact School SENCO for advice throughout and use the useful links document for signposted support. Our support practitioners will be in regular contact throughout your journey

**Triage:** A Neurodevelopmental Pathway Practitioner reviews the referral form and additional information.

Panel: All information collected by the Neurodevelopmental Pathway as part of the assessments are reviewed by a team of professionals.

Referral is incomplete, email sent to referring professional and parent/carer and referral discharged

> **Triaged and recommendations** made and outcome will be shared with family, referrer, GP and school nurse

If not appropriate for further neurodevelopmental assessment, outcome letter sent to referrer. GP and **Parent or Carer with** recommendations

If there are concerns or evidence of development delay or inattention, impulsivity, hyperactivity (ADHD), in the referral it will be forwarded to **Developmental Paediatrics** triage team.

All assessments received. Case will be listed for panel where the assessments will be reviewed by a team of professionals. Education update and parents update requested

The professionals may request some further assessments and then to go back to panel again

Multi professional panel discussion

> Feedback to parent and signposting

We aim to provide regular check in call with an support practitioner throughout the Neurodevelopment Pathway journey
